NOTICE OF INTENTION TO COMMENCE SMALL MINING OPERATIONS

The informational requirements of this form are based on provisions of the Mined Land Reclamation Act, Title 40-8, Utah Code Annotated 1987, and the General Rules as promulgated under the Utah Minerals Regulatory Program.

"Small Mining Operations" mining operations which have a disturbed area of five or less surface acres at any time.

\*\*\*\*\*

I. **GENERAL INFORMATION** (Rule R647-3-104)

1. Name of Mine: HCIC Upper Pond Borrow Site
2. Legal name of entity (or individual) for whom the permit is being requested: Huntington Cleveland Irrigation Company  
Mailing Address: 71 North Main P.O. Box 327  
City, State, Zip: Huntington, UT 84528  
Phone: (435) 687-2505 Fax: (435) 687-5269  
E-mail Address: hcic@etv.net

Type of Business: Corporation ☒ LLC ( ) Sole Proprietorship (dba) ( )  
Partnership ( ) General \_\_\_\_\_ or \_\_\_\_\_ limited  
Or:  
Individual ( )

Entity must be registered (and maintain registration) with the State of Utah, Division of Corporations (DOC) [www.commerce.utah.gov](http://www.commerce.utah.gov).

Are you currently registered to do business in the State of Utah? ■ Yes ■ No

Entity # 557869-0140

If no, contact [www.commerce.utah.gov](http://www.commerce.utah.gov) to renew or apply.

Local Business License # N/A (if required)

Issued by: County \_\_\_\_\_ or City \_\_\_\_\_

3. **Contact Person(s)**

Name: Chris Thomsen Title: Project Engineer  
Address: 240 W Center, Ste 200  
City, State, Zip: Orem, UT 84057  
Phone: (801) 226-0393 Fax: (801) 226-0394  
Emergency, Weekend, or Holiday Phone: (801) 361-5307  
E-mail Address: cthomsen@jub.com

Utah State Lease Number(s): (SITLA) ML51817

Name of Lessee(s): Huntington Cleveland Irrigation Company

7. **Have the above surface and mineral owners been notified in writing?**

Yes ☒ No ☐

If no, why not? \_\_\_\_\_

*Please be advised that if State Trust Lands are involved, notification to the Division of Oil, Gas and Mining alone does not satisfy the notification requirements of Mineral Leases upon State Trust Lands. Exploration or mining activity on State Trust Lands requires a minimum of 60 days notice to the Trust Lands Administration **prior** to commencing any activities. Please contact the School Institutional Trust Lands Administration (SITLA) at (801) 538-5508 for notification requirements.*

8. **Does the Entity have legal right to enter** and conduct mining operations on the land covered by this notice? Yes ☒ No ☐

II. **PROJECT LOCATION & MAP** (Rule R647-3-105)

1. **Project Location** (legal description):

County(ies): Emery

<u>NW</u> 1/4, of <u>SE</u> 1/4, of <u>NW</u> 1/4:	Section: <u>11</u>	Township: <u>17S</u>	Range: <u>8E</u>
<u>NE</u> 1/4, of <u>SE</u> 1/4, of <u>NW</u> 1/4:	Section: <u>11</u>	Township: <u>17S</u>	Range: <u>8E</u>
<u>SE</u> 1/4, of <u>SE</u> 1/4, of <u>NW</u> 1/4:	Section: <u>11</u>	Township: <u>17S</u>	Range: <u>8E</u>

UTM East 500450 (if known) UTM North 4356900 (If known)

Name of Quad Map for Location: Huntington

2. **Location and Operations maps** must be plotted at a scale to accurately identify locational landmarks and operations details. All maps must include a north arrow, scale, appropriate labels, and title box including the mine name, township, range and section.

a. The **general location map** must be the scale of a USGS 7.5 minute series map or equivalent (1"=2000') and identify new or existing access roads.

b. The **operations map** (1"=200' or other scale as determined necessary by the Division) must be labeled and identify:

- The area to be disturbed;
- The location of any existing or proposed operations including access roads, drill holes, trenches, pits, shafts, cuts, or other planned activities; and
- Any adjacent previous disturbance for which the operator is not responsible.

(Contact the Division for a list of consultants and land surveyors for mapping assistance.)

3. The proposed (5 acre or less) disturbed area (including access/haul roads) should be marked in the field ON THE GROUND with metal T-Posts (or with some other marker of equal effectiveness). Markers should be appropriately spaced so that the next marker in either direction is clearly visible with the naked eye.

III. **OPERATION PLAN** (Rule R647-3-106)

1. **Type of mining:** ☒ Surface ☐ Underground

2. **Mineral(s) to be mined:** clay

3. **Amount of material** to be extracted, moved, or proposed to be moved: 4000 yd<sup>3</sup>

4. Will any **water, liquid chemicals, reagents, or other solutions** be used, produced or discharged as part of the mining or milling process?  
Yes ☐ No ☒ If yes, please describe (add extra pages if needed) \_\_\_\_\_

5. Provide a brief **description of the proposed mining operation** and onsite processing facilities (add extra pages if necessary). See Attached Sheet

6. ■ **New Road(s):** Length 0 (ft) Width 0 (ft)
7. ■ **Improved Road(s):** Provide a description of the improvements that need to be made to existing roads to access the site, including the Length 0 (ft) and Width 0 (ft) of improvements.
8. Total project surface **acreage to be disturbed:** 5.0 (acres) PLEASE SPECIFY  
EXACT ACREAGE - (this will be used to determine surety bond amount – see #VI).
9. Proposed **startup date** (month, year) August 2010
10. Proposed **completion date**, if known (month, year) April 2011

**IV. OPERATION AND RECLAMATION PRACTICES** (Rule R647-3-107, 108 & 109)

The reclamation and operation obligation is to keep the area clean and safe, minimize hazards to public safety, return the land to a useful condition, and reestablish at least 70 percent of the premining vegetative ground cover. To accomplish this, the Permittee / Operator will need to perform reclamation concurrently, or at the completion (within one (1) year) of mining. Please refer to The Practical Guide to Reclamation in Utah, available at [www.ogm.utah.gov](http://www.ogm.utah.gov).

1. *Keep the mining operation in a safe, clean, and environmentally stable condition.*
2. *Permanently seal all shafts and tunnels to prevent unauthorized or accidental entry.*
3. *Plug drill holes with a five foot cement surface plug. Holes that encounter fluids are to be plugged in the subsurface to prevent aquifer contamination.*
4. *Construct berms, fences, or barriers, when needed, above highwalls and excavations.*
5. *Remove, isolate, or neutralize all toxic materials in a manner compatible with federal and state regulations.*
6. *Remove all waste or debris from stream channels.*
7. *Dispose of any trash, scrap metal, wood, machinery, and buildings.*
8. *Conduct mining activities so as to minimize erosion and control sediment.*
9. *Reclaim all roads that are not part of a permanent transportation system.*
10. *Stockpile topsoil and suitable overburden prior to mining.*
11. *Stabilize highwalls by backfilling or rounding to 45 degrees or less, where feasible; reshape the land to near its original contour, and redistribute the topsoil and suitable overburden.*
12. *Properly prepare seedbed to a depth of six inches by pocking, ripping, discing, or harrowing. Leave the surface rough.*
13. *Reseed disturbed areas with adaptable species. (The Division recommends a mixture of species of grass, forb, and browse seed, and will provide a specific species list if requested.)*
14. *Plant the seed with a rangeland or farm drill, or broadcast the seed. Fall is the preferred time to seed.*

**V. VARIANCE REQUEST** (Rule R647-3-110)

**Any variance request must be approved in writing by the Division**

Any planned deviations from Rules R647-3-107, Operation Practices, R647-3-108, Hole Plugging Requirements, or R647-3-109, Reclamation Practices, as summarized above (see IV. Operation and Reclamation Practices Item # 1-14), should be identified below listing applicable rule number. Give justification for the variance(s) and alternate methods or measure to be utilized. Written approval from the Division will be given, if the proposed alternative methods to be used are consistent with the Act.

Are variances being requested? Yes ☐ No ☒

1<sup>st</sup> Variance Requested

Item # \_\_\_\_\_ Applicable Rule # (i.e. R647-3-109.10 (if you did not want trenches & pits reclaimed)

Justification: \_\_\_\_\_

Alternate methods or measure to be utilized: \_\_\_\_\_

2<sup>nd</sup> Variance Requested

Item # \_\_\_\_\_ Applicable Rule # \_\_\_\_\_

Justification: \_\_\_\_\_

Alternate methods or measure to be utilized: \_\_\_\_\_

3<sup>rd</sup> Variance Requested

Item # \_\_\_\_\_ Applicable Rule # \_\_\_\_\_

Justification: \_\_\_\_\_

Alternate methods or measure to be utilized: \_\_\_\_\_

Attach additional page if more variances are requested.

**VI. SURETY** (Utah Code Ann. §40-8-7(1)[c])

**A reclamation contract and surety must be provided to and approved by the Division prior to commencement of operations.** All mining operations are required to furnish and maintain reclamation surety to guarantee that the land affected is reclaimed (Utah Code Ann. §40-8-7(1)[c]).

The reclamation surety amount is based on the nature, extent and duration of operations. The amounts are based on data from current large mine surety and are used as a general guide, along with actual site conditions. Reclamation surety for small mines is reviewed every three (3) or five (5) years and adjusted as necessary for inflation/deflation based upon acceptable Costs Index. **Contact the Division for the dollar amount required for a three (3) or five (5) year period for this project.**

I have provided or will provide surety in the form of:

- Certificate of Deposit    ■ Letter of Credit    ■ Surety Bond    ■ Cash (certified funds)  
■ Other \_\_\_\_\_ (please identify) X undecided

**VII. PERMIT FEE** (Utah Code Ann. §40-8-7(1)(i))

A permittee's authorization under a notice of intention to conduct small mining operations shall require the paying of permit fees as authorized by the Utah Legislature (R647-3-102.5). Permit fees are assessed to new and existing small mining operations, and annually thereafter, until the project disturbances are successfully reclaimed by the Permittee / Operator and released by the Division.

***Small Mine Notices require a \$150.00 fee, which must accompany this application, or the Division cannot process it.***

**VIII. SIGNATURE REQUIREMENT**

(Please check the box if applicable and place your initials on the line provided)

- JS ■ I have enclosed the required permit fee.
- JS ■ I have enclosed/requested a Reclamation Contract (Form MR-RC) and the appropriate reclamation surety amount or have made arrangements as to when the surety will be furnished.
- JS ■ I understand that I am not authorized to create any surface disturbance until the surety amount is posted and approved in writing from the Division of Oil, Gas and Mining and any other authorized regulatory agency.

**CERTIFICATION**

I state under penalty of perjury under the laws of the state of Utah and the United States of America that:

- a. I have read this form and declare the information, statements and/or documentation are true, correct and complete to the best of my knowledge and belief; AND
- b. I commit to the reclamation of the aforementioned small mining project as required by the Utah Mined Land Reclamation Act (40-8) and the rules as specified by the Board of Oil, Gas and Mining.
- c. **This certification must be signed by:** (1.) an executive officer if the applicant is a corporation; (2.) a partner if applicant is a partnership (general or limited); (3.) the owner if applicant is a sole proprietorship; **or** (4.) the member or manager if applicant is a limited liability company.

Signature: James Allen Staker Date: 8-4-10

Name (typed or printed): Allen Staker

Title/Position (if applicable): President

## **Attachment A**

### **Upper Pond Borrow Site**

#### **Description of Mining Operation**

The Huntington Cleveland Irrigation Company will use clay from the proposed mining site in the construction of a dam and reservoir. The reservoir will be located on property owned by the Company adjacent to the proposed mining site. The reservoir is being constructed as part of a government funded project to reduce salinity in the Colorado River. The Company intends to strip clay from the surface using earthwork machinery including scrapers, dozers, dump trucks and/or other standard earthwork equipment. The property owned by the Irrigation Company on which the reservoir will be constructed lies directly adjacent to the mining area, and therefore no access roads are required outside the mining area. Mining will be kept as shallow as possible and will generally not exceed 10 feet in depth. After completion of the mining operation the site will be graded to allow natural drainage through the mining site. Mining operations are not expected to exceed 3 months. Total excavation is estimated to be 4000 cubic yards of clay. The site will be reseeded and reclaimed as required by the State immediately after construction of the dam has been completed. No structures or any other facilities will be constructed on the site. No stockpiling is expected to occur. Materials will be transported immediately to the construction site of the dam. The surface area of the disturbance will be held strictly to 5 acres or less.
